

IMPORTANT NOTICE

VERIFY HURRICANE PROTECTION

Failure to contact us will affect the warranty on your hurricane protection. You must fill out the following information and return to us via email address listed below. **Failure to verify** your hurricane protection within 90 days of closing **will void any liability** to their contactor. If we do not receive this form, there will be a change for any missing material and/or we will assume that you have everything to secure your shutters.

Attached you will find the installation instruction. For helpful hurricane preparedness info check out:

WARNING

- ❖ *DO NOT LEAVE PANELS UNATTENDED OR LEANING AROUND THE HOUSE.*
- ❖ *DO NO INSTALL UNDER WINDY CONDITIONS*
- ❖ *WEAR GLOVES AND USE CAUTION*
- ❖ *DO NOT ATTEMPT TO INSTALL ALONE - PLAN AHEAD*
- ❖ *INSTALL YOUR PANELS NOW SO THAT YOU KNOW WHAT TO DO PRIOR TO HURRICANE.*
- ❖ *INTERIOR MOUNT INSTALLATION INSTRUCTION USING TRACKS*
<https://youtu.be/ARfvt8jreBM>

(Application for 2nd floor on town homes and were tracks are present)

1. *Open window - remove screen and clean bottom of track.*
2. *Take one panel at a time, install tool provided in your packet into the center hole at mid span from backside of the panel.*
3. *Holding the tool handle and side edge of panel, put the panel thru the open window and insert into top track all the way up and drop into bottom track. Then move panel all the way to the left.*
4. *Take the second panel follow instruction on #3 but instead move this panel to the right.*
5. *Take the third panel and overlap over the left and right panels. Insert panel into top track and drop in bottom track.*

INSTALLATION INSTRUCTIONS FOR SLIDING GLASS DOORS

<https://youtu.be/QAoAFt6eLlo>

Install the panels starting on the right side from the outside. Install 1st panel and then overlap 2nd . Proceed with the remaining panels leaving (2) panels out to enter and exit.

DIRECT (BOLT) MOUNT INSTALLATION

(Application for single family homes and 1st floor town homes)

<https://youtu.be/tVQ4BwJUksY>

For direct mount installation, loose screws halfway. Start from the left or right then overlap and drop into keyhole. Tighten screws. (Do not over tighten.) Use a #3 Phillip tip to loose screw or you will strip the screws.
